TEAMW TECHNOLOGY Features

WARPKNIT™

High friction, thick cross-weave knit making it the toughest jersey material in the world. WarpKnit™ is stronger than other heavier materials, without adding extra weight and rigidity to the player.

DURAMESH™ PRO STRENGTH

Engineered with high friction, durability and speed in mind. This light-weight, aerodynamic mesh is stronger than heavier materials without adding extra weight and rigidity to the player.

PROKNIT™ TRICOT

Designed as an ideal canvas for sublimation due to its smooth finish and superior pigment intensifying fibres enabling the brilliance of colors to shine through while maintaining durability and a lightweight feel.

The Stanley Series

INTERNATIONAL & NATIONAL HOCKEY LEAGUES' JERSEY

HK-CJ-S1

WHEN NOTHING BUT THE TOUGHEST WILL DO, **THE STANLEY** HAS THE HIGHEST DURABILITY USING THE LATEST IN FABRIC ENGINEERING:

WARPKNIT™ : High friction, thick cross-weave knit making it the toughest jersey material in the world. WarpKnit™ is stronger than other heavier materials, without adding extra weight and rigidity to the player.

DURAMESH™ PRO STRENGTH : Engineered with air flow, durability and mobility of speed in mind for the arm gussets.

PROKNIT™ TRICOT : Engineered as light yet extremely durable in high-friction situations.
